# TheAnors - Design System & UI Specification

**\*\*Version:\*\*** 1.0

**\*\*Date:\*\*** August 9, 2026

**\*\*Platform:\*\*** Web + Mobile (Mobile-first)

---

## 1. Design Principles

1. **\*\*Simplicity:\*\*** Remove all noise. One action per screen.
2. **\*\*Clarity:\*\*** Use clear hierarchy. User always knows what to do next.
3. **\*\*Compact:\*\*** Tight spacing. Mobile screens are real estate.
4. **\*\*Accessible:\*\*** High contrast. Crimson red accent on black/white for visibility.
5. **\*\*Professional:\*\*** No playful gradients. Serious tool for serious work.

---

## 2. Color Palette

**\*\*Primary Colors:\*\***

**\*\*Secondary Colors:\*\***

**\*\*Usage:\*\***

- **\*\*Black (#000000):\*\*** Text, headers, strong emphasis
- **\*\*White (#FFFFFF):\*\*** Page background, card backgrounds
- **\*\*Crimson (#DC143C):\*\*** Call-to-action buttons, active states, highlights, alerts
- **\*\*Light Gray (#F5F5F5):\*\*** Secondary backgrounds, inactive states
- **\*\*Medium Gray (#E0E0E0):\*\*** Borders, dividers, disabled states
- **\*\*Dark Gray (#333333):\*\*** Secondary text, captions, metadata

**\*\*Accessibility:\*\***

- Crimson on white: Contrast ratio 5.5:1 ✓ (WCAG AA compliant)
- Black on white: Contrast ratio 21:1 ✓ (WCAG AAA compliant)
- Never use red alone to convey information (always pair with text/icon)

---

### 3. Typography

**Font Family:** Arial (system default, no web fonts to reduce load)

**Font Sizes & Weights:**

**Line Heights:**

**Letter Spacing:**

**Hierarchy Example:**

---

### 4. Spacing System

**Base Unit:** 4px

**Scale:**

**Compact Theme (Tight spacing for TheAnors):**

**Example HTML with tight spacing:**

---

### 5. Components

#### 5.1 Buttons

**Primary Button (Call-to-Action):**

**Secondary Button:**

**Tertiary Button (Link-style):**

**State Indicators on Buttons:**

---

#### 5.2 Input Fields

**Text Input / Textarea:**

**\*\*Label:\*\***

**\*\*Help Text / Error Text:\*\***

---

### **5.3 Cards / Panels**

**\*\*Card:\*\***

**\*\*Card Header:\*\***

**\*\*Card Body:\*\***

---

### **5.4 Progress Bar**

**\*\*Engagement Progress (e.g., 8/30 posts done):\*\***

**\*\*CSS:\*\***

---

### **5.5 Tabs / Navigation**

**\*\*Tab Navigation:\*\***

---

### **5.6 Modal / Dialog**

**\*\*Overlay:\*\***

**\*\*Modal Box:\*\***

**\*\*Modal Header:\*\***

**\*\*Modal Body:\*\***

**\*\*Modal Footer:\*\***

---

## **6. Layout**

## 6.1 Mobile Layout (380px - 480px)

**\*\*Header:\*\***

**\*\*Content Area:\*\***

**\*\*Bottom Navigation (if used):\*\***

**\*\*Example Mobile Screen:\*\***

## 6.2 Desktop Layout (1024px+)

**\*\*Sidebar Navigation (optional):\*\***

**\*\*Main Content:\*\***

**\*\*Two-Column Layout (for comparison):\*\***

---

## 7. Color Usage Examples

**\*\*Engagement Workflow Screen:\*\***

**\*\*Comment Options Display:\*\***

**\*\*Navigation:\*\***

---

## 8. Responsive Design Breakpoints

**\*\*Media Queries (Tailwind or CSS):\*\***

**\*\*Tailwind Config Override (for tight spacing):\*\***

---

## 9. Component Library (React Examples)

### 9.1 Button Component

## 9.2 Card Component

## 9.3 ProgressBar Component

## 9.4 Input Component

---

## 10. Dark Mode (Future)

**\*\*For future implementation, invert colors:\*\***

**\*\*Tailwind dark mode:\*\***

---

## 11. Accessibility Checklist

- [ ] Color contrast ratios 4.5:1 minimum (WCAG AA)
- [ ] All buttons/links have visible focus state
- [ ] Form labels associated with inputs (htmlFor)
- [ ] Alt text on all images
- [ ] Keyboard navigation (Tab order, Enter to submit)
- [ ] ARIA labels for complex components
- [ ] Error messages linked to form fields
- [ ] Font size minimum 12px
- [ ] Line height minimum 1.4
- [ ] Touch targets minimum 48px (mobile)

---

## 12. Animation & Transitions

**\*\*Keep minimal. Defaults:\*\***

**\*\*No:\*\***

- Bounce animations
- Slide-in animations (on mobile, too slow)

- Multiple simultaneous animations
- Animations longer than 400ms

---

## 13. Implementation Checklist

### Before Coding:

- [ ] Set up Tailwind with custom config (tight spacing, colors, fonts)
- [ ] Create `/components` folder with base components
- [ ] Create `/styles/globals.css` with custom utilities
- [ ] Test color contrast ratios
- [ ] Test mobile layout at 380px width

### During Development:

- [ ] Use semantic HTML (`<button>`, `<label>`, `<form>`)
- [ ] All inputs have associated labels
- [ ] All interactive elements have focus states (visible)
- [ ] Test keyboard navigation (Tab, Enter, Escape)
- [ ] Test at mobile, tablet, desktop breakpoints
- [ ] Test with screen reader (NVDA, JAWS, or VoiceOver)

### Before Launch:

- [ ] Lighthouse audit (Accessibility 90+)
- [ ] WAVE accessibility scanner
- [ ] Manual accessibility review (keyboard only, screen reader)
- [ ] Mobile device testing (iOS Safari, Chrome Android)
- [ ] Performance testing (Lighthouse Performance 80+)

---

## 14. Design System File Structure

---

## 15. CSS Custom Properties (Variables)

**\*\*Usage in CSS:\*\***

---

## **16. Print Styles (for exported documents)**

---

**\*\*Design System Status:\*\*** Ready for Implementation

**\*\*Next Step:\*\*** Component Library Build + Storybook Setup (optional)

---

## **Appendix A: Figma/Design Software Export**

**\*\*If using Figma for mockups:\*\***

1. Create frame at 390px (iPhone SE width)
2. Set colors to custom palette (black, white, crimson)
3. Use Arial font (system font)
4. Create components for Button, Card, Input
5. Build screens: Dashboard, Engagement, Captions, Newsletter
6. Export as PNG for documentation
7. Share Figma link with team for live feedback

---

## **Appendix B: Quick Reference**

| Element | Font | Color | Padding | Border |

|-----|-----|-----|-----|-----|

| Display Title | 28px Bold | Black | - | - |

| Section Title | 20px Bold | Black | - | - |

| Heading | 16px Bold | Black | - | - |

| Body | 13px Regular | Black | - | - |

| Primary Button | 13px Bold | White on Crimson | 8px 16px | None |

| Secondary Button | 13px Bold | Black on White | 8px 16px | 1px Gray |

| Input | 13px Regular | Black | 8px 12px | 1px Gray |

| Card | 13px Regular | Black | 12px | 1px Gray |

| Progress Bar | 11px Regular | Crimson | - | 1px Gray |

---

**\*\*Design System Finalized:\*\*** August 9, 2026

**\*\*Ready for Build:\*\*** ✓
